

# SEP TOOLS CONVERSATION STARTERS

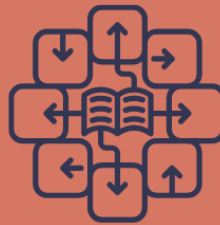

## POST OBSERVATION

Which SEP components  
were easy to achieve?  
More difficult?

How would you revise  
your strategies for  
engaging students in  
the SEP component(s)?

What other  
components can be  
built on the foundation  
that you started?

What did your  
assessment tell you  
about how the students  
use the components?

How did you end up  
guiding the students  
to enact the SEP  
component(s)?
